

Dr. Hao Van Bui

(Phenikaa University, Vietnam)

Hao Van Bui received his MSc (2008) in Materials Science at International Training Institute for Materials Science (ITIMS), Hanoi University of Science and Technology (Vietnam), and PhD (2013) in Electrical Engineering at the University of Twente (the Netherlands). After his PhD, he worked as a postdoctoral researcher at the University of Twente (2012 – 2014) and at Delft University of Technology (2014 – 2017), the Netherlands. Since 2018, he has been working at Phenikaa University, Vietnam, where he is leading the ALD Research Group. His research focuses on the synthesis and surface engineering of advanced catalysts using atomic layer deposition for environmental and energy-related applications.
