

Korean International Semiconductor Conference
on Manufacturing Technology 2023 (KISM 2023)
November 19-23, 2023/Paradise Hotel Busan, Busan, Korea

Assoc. Prof. Myung-Gil Kim

School of Advanced Materials Science &
Engineering, Sungkyunkwan University, South
Korea

Myung-Gil Kim is an associate professor at School of Advanced Materials Science & Engineering at Sungkyunkwan University (SKKU), South Korea. He received his BS (2006) in chemistry at Korea Advanced Institute of Science & Technology, South Korea, and Ph.D. (2012) in chemistry at Northwestern University, USA. Before joining SKKU, he worked as post-doctoral researcher at Northwestern University (2012) and at Stanford University (2013-2014), and as an associate professor at Chung-Ang University (2014-2019). His research interest focused on developing electronic, energy, and environmental materials with molecular design of inorganic materials for thin-film transistor, electrocatalyst, hazardous materials capture, and EUV photoresist.
