

## **Mr. Dae-bong Yoon**

(Samhwa Paints, South Korea)

---

Dae-bong Yoon is a R&D Center leader at Samhwa Paints and he is in charge of low-CTE technology development for semiconductor packaging. He has led the development of functional composite materials with EMI shielding and high thermal conductivity for PIM packaging. And he has also led the development of commercialization of low-CTE epoxy for die attach film and mass production technology for low-CTE epoxy.

Dae-bong holds a MBA degree from Korea University, and a Bachelor of Applied Chemistry from Ajou University.
