

Prof. _

(Department of Electronic Engineering, Hanyang
University, Republic of Korea)

Professor Jinsub Park is a full professor at Hanyang University in Department of Electronic Engineering and Division of Nanosemiconductor Engineering. Currently, he is a head of Department of Semiconductor Engineering. He received Ph. D. from Tohoku University, Sendai, Japan in Applied Physics and Engineering. Prof. Park has authored and co-authored more than 150 high-impact journal papers including Nano letters, Nanoscale Horizons, Composite B Engineering, ACS Sustainable Chemistry & Engineering. He is a recipient of deputy prime minister award in 2020. His group is developing advancement of semiconductor technologies including Energy & Environment, advanced memory devices and optoelectronics.
